CRISIL RATING – SME-I

Annual Production Capacity : 225 Million Transmission Gears and Shafts

Total Land : 500,000sq.ft

TPM way of working

About us

Jagadamba Auto-Components Ltd. manufactures transmission gears, shafts and machined components at Koregoan Bheema, an industrial destination close to Pune and easily accessible from the commercial capital of India – Mumbai.

Our Vision

We must get ready for tomorrow, today - our Vision serves as the framework for our roadmap.

- **Product:** To create value and make a difference.
- **Customer:** To be responsive to customer requirements and provide total customer satisfaction.
- **Productivity:** Be a highly effective, lean and fast-moving organization.
- **Quality:** To display highest commitment to excellence in product quality and service.
- **People:** Be a great place to work where people are inspired to be the best they can be.
- **Environment:** Be a socially responsible corporate, addressing need of community and environment.

Our Mission

Everything we do is inspired by our Mission. It declares our purpose as a company and serves as the standard against which we weigh our actions and decisions.

- To manufacture products comparable to international standards and become a leading manufacturing company.
- To attain global best practices and strive to be globally competitive through better quality, latest technology and continuous innovation.
- To be customer-focused and achieve excellence in project execution, quality, reliability, safety and operational efficiency.
- To be a responsible corporate citizen nurturing human values and concern for society.

Operational Excellence

Jagadamba Auto-Components Ltd, is well equipped to serve you better and efficiently. It has world class technology ranging from forging to heat treatment to finished products including sub-assemblies to serve our customers Just In Time for their final assembly.

Alongside our well equipped machinery is also years of experience and talent in the form of our competent employees that we can boast of. JAL has invested in manpower capable of utilising and supporting its machinery.

Highlights

Highly sophisticated machines can achieve very stringent tolerances in a few microns.

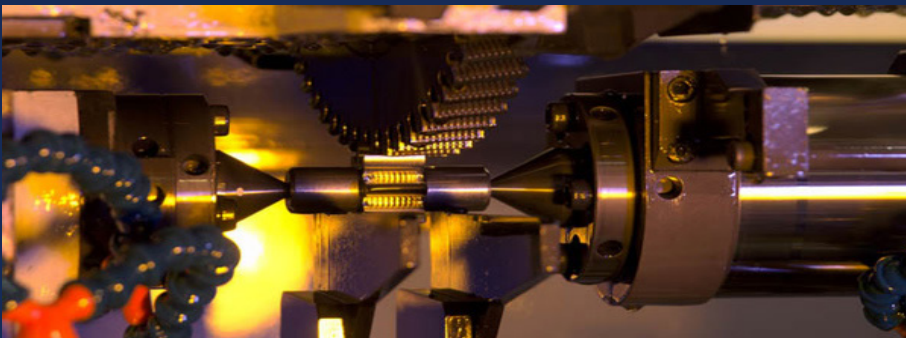

Ground gears can achieve accuracies up to DIN 5-6.

Product Development Cell.

Multitasking machines.

- Cold, Warm and Hot Forging
- CNC Turning
- Vertical Machining Centres
- Broaching
- Deep Hole Drilling
- Multi Tasking Machines
- Gear Hobbing
- Spline Rolling
- Gear Shaping
- Shaving
- Heat Treatment
- Induction Hardening
- Bore Honing
- Shot Peening
- Grinding
- Gear Grinding

Products

JAL's products speak volumes about its approach to quality. We manufacture over 300 different products for customers across the globe. Each product undergoes stringent quality checks to meet internationally accepted standards.

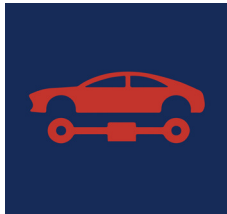

TRANSMISSION GEAR | SHAFTS | PUMP GEARS | PLANETARY GEARS | COUPLINGS | RING GEARS
FLANGES | WORM GEARS | RATCHETS | AXLE COMPONENTS | MACHINED COMPONENTS

"Quality is never accidental. It is always the result of good intentions, focused and sincere effort, intelligent direction and skilful execution."

Clients

Jagadamba Auto-Components Ltd, is a first class supplier of precise machined components which include automotive & non-automotive parts to major OEM's all over the globe. It is known for understanding customer needs and requirements hence helping it provide Just In Time delivery.
